Peske-Tuk 1974

We
left
with
happy
memories

and
have
gained
many
more.

We've only just begun to live

Sharing horizons
that are
new to us

Talking it over —
just the
few of us

Let's take a
lifetime to say
I knew you well

Working together
day to day

When there's no getting over that rainbow

It's nice to know that you'll be there if I need you and you'll always smile

Sing of
good things
not bad,
Sing of
happy
not sad

I can take all the madness the world has to give

I'm on the top of the world looking down on creation

Everything I want
the world to be
is now coming true
especially for me

Those were such happy times and not so long ago

The countless times and places lead me back

What lies in the future is a mystery to us all

So many roads
to choose,
so much of life
ahead

Class History

In the fall of 1970, we entered Turner Falls High School as FRESHMEN. Everything was new and different. Exciting days were ahead of us. Remember our Freshman Welcome? All the girls bought new dresses to wear. Do you remember our first rally? The cheerleaders yelled, "Let's hear it from the Freshman!", and the whole balcony became quiet. Our first Booster Day, we worked for weeks on our float, "The Scale of Victory." It was so big until we took it out of the garage. We showed our superiority as a class later in the year as we led the school in magazine drive returns and also won the hall decorating competition. Remember our first class trip? In May two busloads of Freshmen made the trip to New York City. It was worth the hard work, topping off a great year. In June we looked forward to another exciting year as upperclassmen.

SOPHOMORES. Finally we were established in the High School. It was a great sports year. Remember "Ho, Ho, Ho, 9-0!"? We worked hard on our second float "Stampede the Senators." It was the best float we made. Remember how proud we were that day? Remember how disappointed we were when it didn't win? The big event of the year was getting our class rings. Our class showed its originality by chosing barrel shaped rings instead of the traditional round one. Remember the Cardiac Kids? Our basketball team made it to the state semi-finals. The baseball team went to the Western Mass. Championship. We organized early as a class preparing for another trip. Remember the first annual Class of '74 International Smorgasbord? We took our second class trip to Montreal in May. We looked forward to another great year.

JUNIORS. With only two years left, we worked hard to make our Junior year a success. Remember our float "A Whale of a Victory" which didn't get finished? It was the Cardiac Kids all over again as the basketball team advanced to the state finals. Breaking with tradition, we made tuxedos optional at our prom. "Moments to Remember" at the Northfield Inn was a great success. Remember the second annual Class of '74 International Smorgasbord? Remember the fine performances of our Prize Speakers? As June rolled along, we said goodbye to the graduating seniors and also to the old Turners Falls High School. We looked forward to being in our new school for our last year.

SENIORS. Remember the first day walking into the NEW school! It was like being in first grade again. Remember your embarrassment when you couldn't find a room? Our Booster Day Float, "Skunk 'em", won the competition. Our class worked hard to produce a better yearbook, Teen Scene, and Netop. Remember how anxious we were to show off our new school? Remember Senior slave day? It was a good way to earn money and it was a lot of fun too. As the months went by, we began to split in different directions, planning for the future. We would leave as the first graduating class at the new high school. In its halls are left happy memories and good friends to be treasured in the years to come.
1974 — It was a very good year!

Dedication

As the first graduating class of the new Turners Falls High School, the class of 1974 wishes to dedicate this yearbook to the future generations who will contribute to the value and true spirit of this school.

As each class eventually passes through the corridors of this modern building, may they take with them the many memories and valuable knowledge that they will have gained from their six years in education.

May each individual learn to set his own goals for living and may he attain the skills necessary for a productive and self-satisfying life.
